## Story of Change

### When Dreams Take Flight

The worst kind of poverty is that of feeling lonely which, unfortunately, Atish dealt with early on in life, while facing financial hardships as well. Having lost his mother at a young age, Atish was forced to move out of his home in Karle, Alibaug, and live with his maternal relatives in Zirad, when his own father disowned him, choosing to tend only to his older son's needs.

But like they say, when the going gets tough, the tough get going. None of this dampened Atish' spirit, who was determined to make it on his own. All his ambitions and aspirations saw the light of day when he was chosen to be a beneficiary of Light of Life Trust in 2010. Initially reticent, Atish soon became an active participant of our numerous workshops, competitions and group discussions and went on to become an outstanding performer at talent festivals and sports events. What he lacked in formal education, he made up for with his diligence and eagerness to excel in his field of interest.

After clearing his school exams with 46% marks, Atish went on to pursue Commerce and then did a business-oriented course, following it up with a two-year I.T.I. course in Motor Mechanics. This paid off well, when Atish was awarded an internship at the esteemed Tata Motors.

Noticing his skills and efficiency, coupled with a good amount of practical knowledge in his field, Godrej Private Limited Company offered him a permanent job with an annual package of over Rs. 1 lakh; a good amount to support his needs along with his family's.

We, at Light of Life Trust, along with our well-wishers, are proud to see Atish rise above all odds and make a name for himself!
